Catarrh has already become a national curse. Its ravages extend from ocean to cocean.

More than one-half of the people are affected by it. It has become such a serious matter that it has passed the boundaries of the medical profession and become a national question. Senators are talking about it; Congressmen are discussing it.

They are not only considering the extent and chronic nature of the disease, but the possibility of finding a national remedy to meet this national calamity.

The catarrh remedy, Peruna, seems to be the main expectation in this direction.

Doctor Hartman, President of the Hartman Banitarium, devised the remedy. Peruna is not a local application or temporary relief; it is a permanent curse. Peruna is a systemic remedy. It cradicates catarrh from the system. It curse catarrh from the system. It curse catarrh from the system. Act Not Solicited in St. Louis.

law has not yet reached St. Louis, according to the statements made by Lee Mow Lin. Lee Mow Choung, Lee Bing and others of the local Chinese colony.

The proclamation requires every Chinese in the United States to contribute \$1\$ to the fund. In order to compel the payment, the proclamation states that, if payment is not made within one month, the delinquent will be assessed \$2\$ and doubled every month thereafter until the contribution is paid. To bring recalcitrants into line, it is further announced that any Chinese desiring to return to China must exhibit a receipt showing the amount of their contribution, failing which they will be fined \$10\$ before they will be allowed to depart.

Lee Bing, when seen at No. If South Eighth street, said that his countrymen here had not yet been advised of this proclamation, although they receive copies of the daily Chinese newspaper published in San Francisco.

the daily Chinese newspaper published in San Francisco.

"I don't know whether the Chinese here will contribute to such a fund or not," he said. "Some of them will obey any order of the Six Companies, but others who think for themselves, may not. When the Six Companies called for a similar contribution in 1884, I think it was, to defeat the law requiring Chinese to furnish identification photographs, only about one-third of the St. Louis Chinese obeyed. The others complied with the law without objection. I believe it will be the same way this time."
